

Richard Rorty's prescient warnings for the American left - Vox

Rorty's "Achieving Our Country" is a book I've recommended to many as a basic introduction not only to left-right politics in 20thC America, but as an intelligent discussion of the differences between the Old Left and New Left, and the dissipation of the left in the post-60s culture wars.

Glad to see and be able to pass along this Vox article synopsisizing some of Rorty's ideas from his 1997 book.
