

9/11 Whistleblowers : The Corbett Report

Appropriate for 9/11 anniversary, this was sent to me in response to the NPR piece on Manson's relation to COINTELPRO and MK Ultra. So far I've watched only 2 of the Corbett videos, the first and a later one on Kate Jenkins. Much more solid stuff than a lot I've seen/heard on 9/11.

The Jenkins piece updates and corroborates a 2012 award-winning video by my friend Heidi Dehncke-Fisher (which is the basis of the piece "dust' in my Mr America Drives His Car):

"The first casualty of war is the truth," and in a state of eternal war like those against evil of terror, the truth is DOA.
