

## No More War

I went to the drugstore and I looked inside  
Saw my good gal had upped and died  
Hung my head down and I cried  
Don't want no more war

Can't drink this water can't breathe this air  
Can't eat this food that's been shot up to here  
Can't walk on the ground with cement everywhere  
Don't want no more war

You say what you're doing's for the good of the race  
All that you're doing is tryig to save face  
Please look at yourself and get off of my case  
Don't want no more war

You drive down the road with your gun in a rack  
You sleep in a doorway with an old gunny sack  
Looks to me like it's time we get back  
Don't want no more war

I walk in the mountains I walk to the sea  
I walk cross the desert I walk through the trees  
Nothing manmade makes as much sense to me  
Don't want no more war

Going to find me a river build me a farm  
Raise up a roof with my right arm  
Out where nobody will deal me no harm  
Don't want no more war

Let's pick up this mess and try not to waste  
Let's grow some food we can smell and can taste  
We'll learn to make love without so much haste  
Don't want no more war

East is east and west is west  
I've got np idea which one is the best  
Any place is ok where a body can rest  
Don't want no more war
