

## **After the Revolution Blues (*lyrics*)**

I got them After the Revolution Blues  
The Queen is in the White House I got nothing to lose

When the bomb when off I was standing up front  
All I could manage was a dirty old grunt  
I rolled around and said tthis is it  
Take me prisoner Baby because I quit

I got them After the Revolution Blues  
great big hole in the sole of my shoes

At the very first shot I thought I was dead  
Then kit all flashed before me I was free instead  
I laid real quiet and didn't let on  
And when I opened my eyes that war was gone

I got them After the Revolution Blues  
I hate to say it's time to pay them dues

At the second shot I was sitting in jail  
She wrote to say she couldn't get up the bail  
It was a padded cell it didn't have one bar  
I could go when I wanted if it wasn't too far

I got them After the Revolution Blues  
So doggone lonesome don't know what to do

Well we won the war but you k ow I lost  
I could have stayed dead at half the cost  
The war is over that's plain to see  
But I'm not the man that I used to be

I got them After the Revolution Blues
