

**No Need to Explain** (*lyrics*)

No need to explain  
I got the chilblains  
You must already know  
I got the lumbago

No need to explain  
I got a slipped disk  
I'm over thirty  
A poor security risk

I'm a spectacled child  
A man with a wish  
I got rheumatism gout  
A recurrent case of the itch

In the fifties it was crazy man crazy  
Now where is that?  
In the sixties innies and outies  
Now where is that?

How come is it I'm  
Always in between times  
O where is that?  
Can it be that I'm  
Just out of my mind  
O where is that?

It's out of my mind  
I've been trying to be  
Baby can you tell me  
How I can be  
Out of my mind  
Now where is that?

No need to explain  
This paregoric refrain  
Ease your uptight brain  
This world space train  
We ride into the rain  
No need to entertain  
Try not to go insane  
No need to explain
