## **Silence**

SILENCE SILENCE

The land The time

The green bird To hear

The yellow Laughter cripple

Do not sing The eunuch leaves

Antlered or hackled or horned He slips from the edge of the mirror Halo of breath or pale fur

The door wears the face of a bleeding ghost

(Remember, Love, when . . .)

Afraid one comes, afraid one goes

(Shall I slice this throat. . .)

Dead hand turns the knob

Weird words in woolen ears
The *Wolf* becomes the *Bear*The *Bell* grows hair

Bend her back over your hands
Swing her underbelly up
Ring her with your brazen tongue
Until she cracks free.
May as well get into it.

You won't remember tomorrow.
