

## **Sing a Happy Song (*lyrics*)**

Well there ain't no way in this world to get along  
No there ain't no way in this world to get along  
All my friends tell me, Sing a happy song

Well I tried my hand at selling but dealing ain't my style  
I tried my hand at construction but trachomes ain't worthwhile  
I broke my butt on the railroad, couldn't sit down with a smile

I keep wandering around, no place to go  
Summers in the desert winters in snow  
If I come to your place, please don't say no

Don't do much talking when you come up here  
Don't tell me your troubles don't tell me your fear  
Don't tell me nothin' about nothing, I don't want to hear

And when you leave this place, no need to say goodbye  
Don't tell them how you got here don't tell them why  
Say hello to the morning, how-de-do to the evening sky
