

Land of the flea home of the *daygo* down
into indiscriminate skyscraper murk

patriarchalist said women *faggot*
said men *a breeder* said those who don't

even the medievals knew theory
is in the practice the action the act

not in lawbooks that define injustice
textbooks on how to count beans

gap-toothed histories permitting
the enormous I-me-and-myself

certain of nothing but *the holiness of the heart's*
affections and truth of imagination

rooming in close as they say in the trade quarters
all liberties due him.
