

Better instead of lunacy or faith
animal or otherwise to call
the abrupt leaps from glacial ledge to ledge
scientific imagination insight
a suddenly apprehended universal
even *proleptic thought* though that one would be

soiled by Graves who had the temerity
to call Penelope a duck and cloud
the issue with ancestries unnecessary
to an understanding of words going into action,
not mere refractions of external abstractions

but actual sensual particulars
an immanence of imaginary subjects
realized in cadence rhythm rhyme
different orders of acute perception
illuminating lines of communication
species to genus profane to sacred

visionary to economic joined
through skilled aesthetic actions *techne poiesis*
correctly performed, will correctly directed
an intellectual and emotional complex
in an instant ideas springing from affection
spoken in affectionate tones an abrupt

transformative liberation a sense of freedom
from time limits — not through argument
but as angels speaking to one another
each utterance a symphony
celebrating not generalities
but particular celestial marriages

properties abilities quirks
character personality aura
each animal individual
each individual familiar
in relation in comparison
like to like like to unlike

corresponding to an *absolute*
rhythm emotion *exact emotional shade*
each standing for only her own perfection
authority recognized not bestowed

a natural hierarchy informing the process
turning spirals on their axes.
