

Going to Town Tonight (*lyrics*)

Driving down the road give a shout and a holler
Hanging onto that wheel like a silver dollar
Going to get into town and take a hot shower
Going to town to night

Made a couple of bucks on a government scam
That's alright Mama I know what I am
Been taking it easy on a stay-away plan
Going to town tonight

There's a woman there I used to call my own
Every time I call her on the telephone
She never answers but I know she's home
Going to town tonight

Every time I think of you 'm a worried man
I just can't help myself
Every time I see you with another man
You know I'm afraid for my health

There's a big full moon and an evergreen tree
My rearview mirror shows them plainly to me
Might as well be dark as far as I can see
Going to town tonight

There'll be singing and dancing and going hog wild
That man in the backseat is the devil's own child
He'll be alright if we don't get him riled
Going to town tonight

We'll eat ice cream and buy things and hit all the bars
Drive around town in a fancy car
With any luck forget where we are
Going to town tonight

I got something in my blood makes my temperature rise
Just give me your hand to hold
I got something in my pocket makes me feel unwise
Ever to have come in from the cold

I'll be happy to come and happy to go
Thank everybody for the picture show
If it's Christmas time maybe it will snow

Going to town tonight
