

## Here We Are

Slime in sunlit ooze  
    struck with lightning  
    steeped in toxics substances  
or both, and here we are

Little squirrels in the trees  
    infected with virus  
    zapped by cosmic rays  
or both, and here we are

Twin spirals intertwined  
    a gleam in his eye  
    come hither in hers  
or both, and here we are
