Transitions translations transformations  
transnational incorporations

polychlorinated fossil fuel  
biochemical environment

uranium's dirty daughters  
petroleum's slutty sisters

saccharine sweet masks  
disguising visceral disdain

fingering keys of whirlybird organs  
manipulating susceptible molecules

bending genders  
twisting helices

preshrinking sexish genes  
resexing self-abusing teens

making hormones moan

respelling outdated DNA  
into freeze-dried alphabet soup

soggy noodles and preservatives  
best served with limp sausage

deranged scales of reptile brains  
squishy umbilical chords

a marital music neither fish nor fowl  
a multiverse songbook

of android algorithms  
tech-bro billionaire abracadabra

to make celestial body mechanics  
their private escape mechanisms

power-hungry populists grabbing  
everything they can squeeze

something out of or into

O brave new world  
that has such cyborgs in it
