

Black Holes Wormholes

Black holes wormholes
rabbit holes foxholes
no light at the end, no end,
elephants all the way down

Your guess as good as mine
everyone entitled to his or hers
pin the tail on where you will
who has the most toys wins

How to get out if it floods?
How to get back through the mirror?
Back to the cornbelt after the twister?
Was the funhouse really fun?

Is one plus one two, or another one?
Why anything instead of nothing?
What *is* the sound of one hand clapping?
Where *does* the light go when it goes out?

Who *did* kill Cock Robin?
If he had the answer on the tip of his tongue
he'd tickle your ear with it,
send shivers up your spine
